Work Experience

Aug. 2025 - Present

Act Digital/Globo - **Senior Product Designer**

Remote - Rio de Janeiro, RJ

- Design and refinement of end-to-end UI for a mobile app on iOS and Android, focusing on usability, visual quality, and consistent experiences.
- Conducted end-to-end feature design from discovery to handoff, using research, benchmarks, interaction design, prototypes, and in-app validation to inform decisions.
- Contributed to the product Design System through project themes, core components, variables, and scalable Figma libraries.
- Created interactive prototypes, motion explorations, and handoff documentation in Figma to align design decisions with engineering implementation.
- Integrated AI tools - including Claude, Perplexity, Figma AI, and Figma Make into research, ideation, prototyping, UX writing, and design-to-development workflows, accelerating iteration, exploring design directions, and generating microcopy aligned with the product's tone of voice.

Aug. 2024 - April 2025

HURB - **Senior Product Designer**

Hybrid - Rio de Janeiro, RJ

- Led the implementation of the Design System, optimizing design processes, standardizing UI components, and pattern libraries to ensure brand consistency across web and mobile platforms.
- Collaborated with cross-functional teams to create and document components, define user workflows, and prioritize new features in an Agile environment.
- Conducted user research and usability testing to validate design decisions and improve user engagement.
- Enhanced the architecture of Figma libraries, improving variable organization and increasing adoption within the Design team.
- Created high-fidelity prototypes in Figma, streamlining the validation of complex flows, improving communication between design and development, and accelerating the handoff.

Oct. 2022 - Nov. 2023

Aveva - **Senior Product Designer**

Hybrid - Rio de Janeiro, RJ

- Designed intuitive interfaces for industrial software, optimizing complex dashboards and data visualizations for engineer and operator workflows.
- Established UX guidelines and pattern libraries, improving design consistency across AVEVA's suite of applications.
- Collaborated with Engineers, Data Scientists, and Product Managers to ensure responsive, accessible design.
- Led stakeholder workshops using design thinking methods to define product requirements and roadmap priorities.

Jul. 2021 - Sep. 2022

Dell technologies - **Design Technologist**

Remote - Texas, USA

- Developed and improved solutions for the Dell site using Adobe Experience Manager and Vue.js.
- Collaborated with the Creative-UX Team to enhance User Experience and Design Aesthetics.
- Served as a bridge between UX design and Engineering teams, translating creative concepts into functional prototypes and production code.
- Contributed to Dell's Design System by creating UI components and documenting style guidelines in Adobe XD.

Dec. 2015 - May 2021

Stone.co (Mundipagg/Pagar.me) - **Lead UI Engineer | Front-End Developer**

On site - Rio de Janeiro

- Migrated legacy codebases to Angular 2+ with TypeScript, ensuring improved performance and maintainability.
- Played a key role in the full transition of products from Angular to Vue.js, enhancing consistency across platforms.
- Built and maintained Emerald, a Design System aimed at unifying product interfaces and accelerating development.
- Developed framework-agnostic components in HTML, CSS, and JavaScript, later adapted into Vue.js, React, and Angular by other teams.
- Enabled reusable UI testing and component showcases using the Design System across multiple applications.
- Supported the adoption of the Design System across all Mundipagg (now Pagar.me) products, including the main website.
- Focused on the Design System's continuous improvement, comprehensive documentation, and expansion across Stone.Co Group.

Education

2022

Miami Ad School Brasil - **Creative + Strategic Design**

Remote - Rio de Janeiro

Training Course

2020/2021

Mergo Design School - **Product Design/Research**

Remote - Rio de Janeiro

Processes for product development, from the business vision to validation.
How qualitative and quantitative research methods can help in the processes of discovering and exploring a problem, and in the process of validating a digital product solution.

2009 - 2012

Universidade Unigranrio - **Information Systems**

Duque de Caxias, RJ

Bachelor's degree
